

ResuAI - Prototype Walkthrough

Screen-by-screen guide to the Figma prototype, in functional sequence

1. Dashboard
2. My Resumes: Resume Editor, AI Resume Agent, Review changes, Save, ATS Check
3. Create Resume: Upload flow and 6-step Builder
4. Job Match
5. Templates
6. AI Agents
7. Applications
8. Settings: Profile and Upgrade to Pro

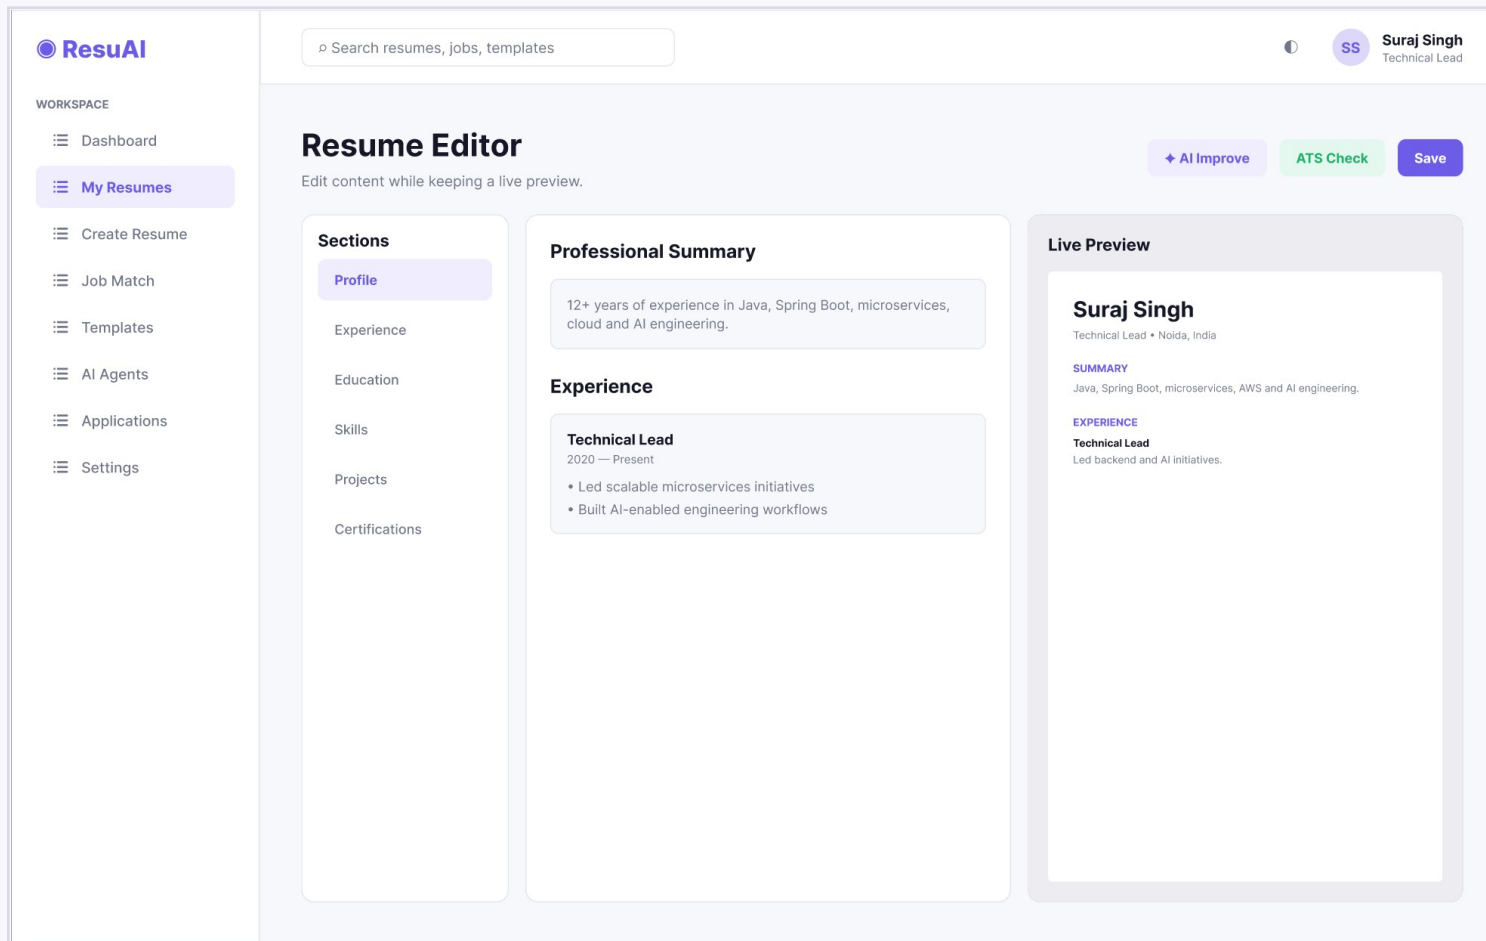

What it does

Home screen after login. Greets the user and summarises their workspace: total resumes, applications, best ATS score and AI credits, plus quick cards for saved resumes.

Actions / next screen

- Create New Resume -> Create Resume options
- Choose Template -> Template gallery
- Any resume card (Backend Developer, AI Engineer, Cloud Architect) -> Resume Editor
- Left sidebar -> any module

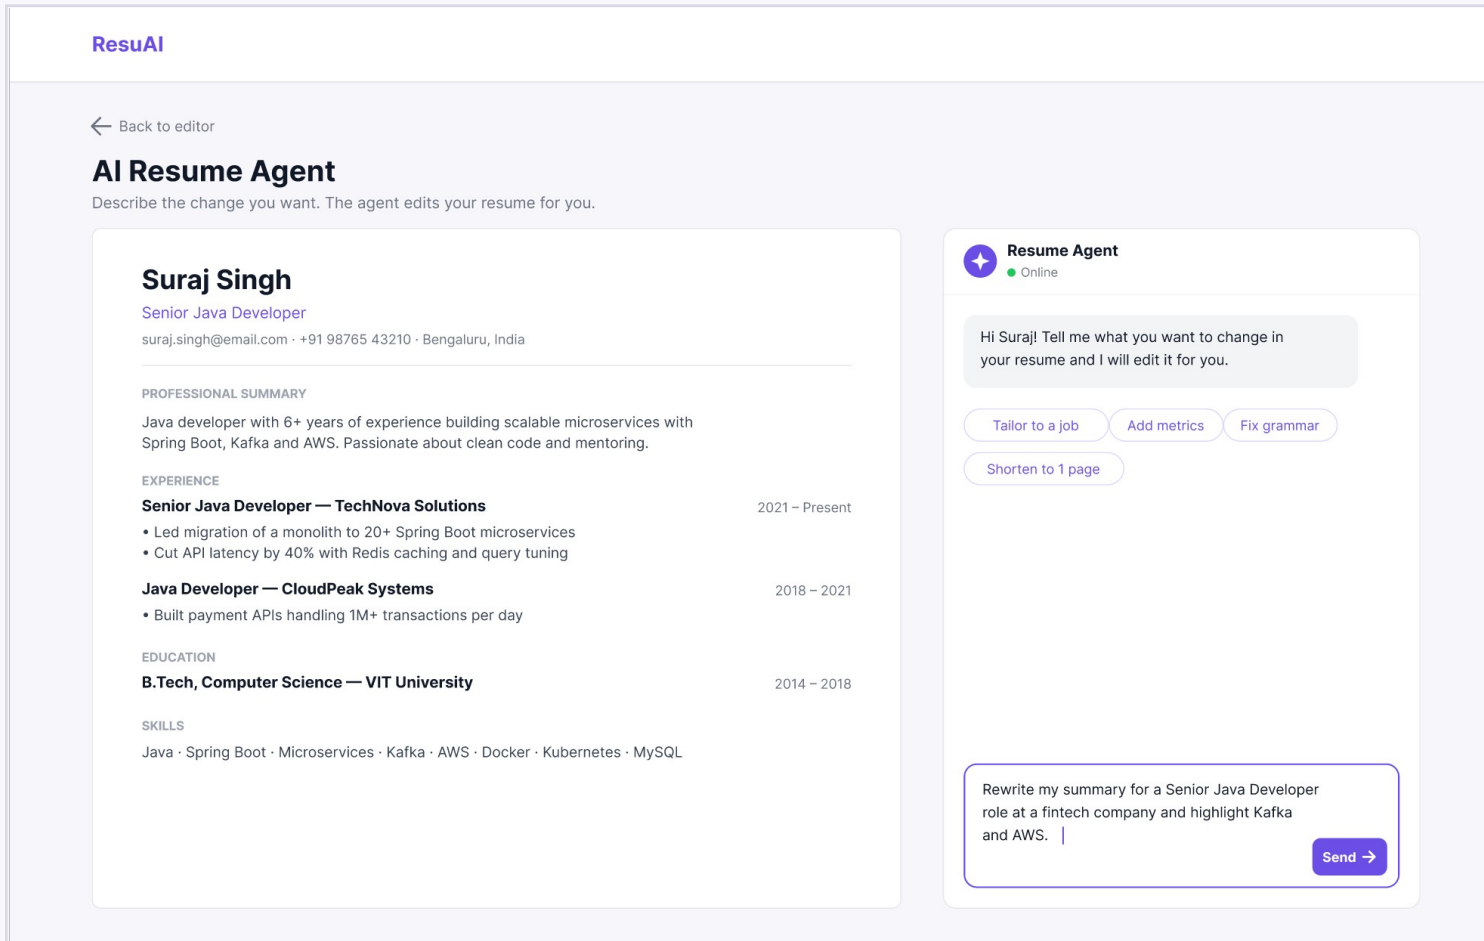

What it does

Edit a resume section by section (Profile, Experience, Education, Skills, Projects, Certifications) with a live preview on the right.

Actions / next screen

- AI Improve -> AI Resume Agent
- ATS Check -> ATS score popup
- Save -> "Resume saved" toast (next page)

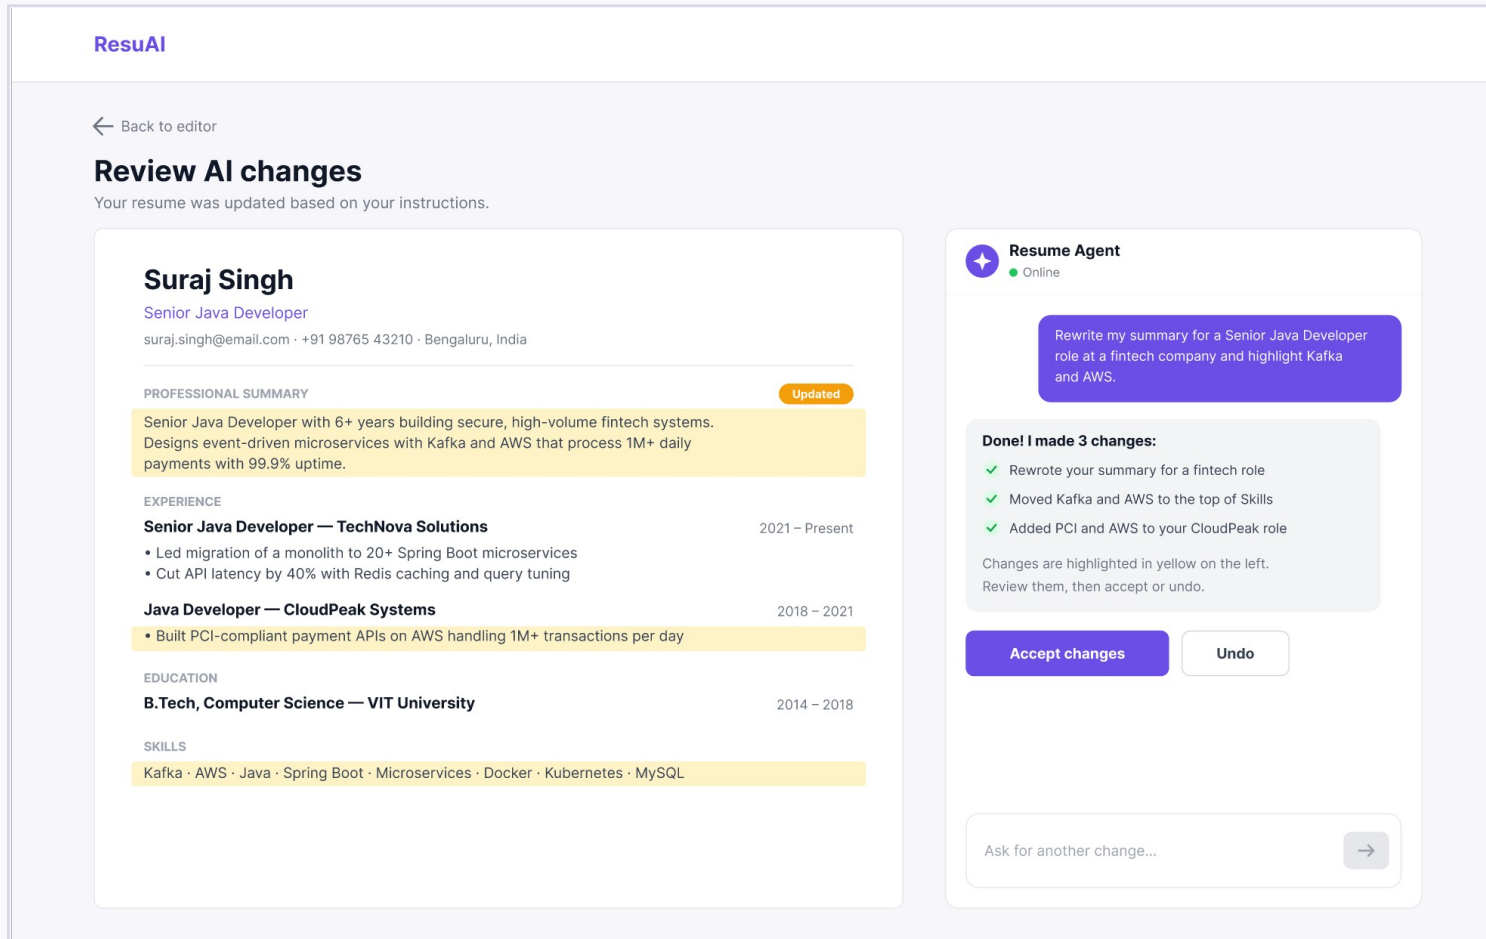

What it does

Chat-based agent that edits the resume from plain-language requests. Shows quick prompts: Tailor to a job, Add metrics, Fix grammar, Shorten to 1 page (display only in prototype).

Actions / next screen

- Send -> Review AI Changes
- Back to editor -> Resume Editor

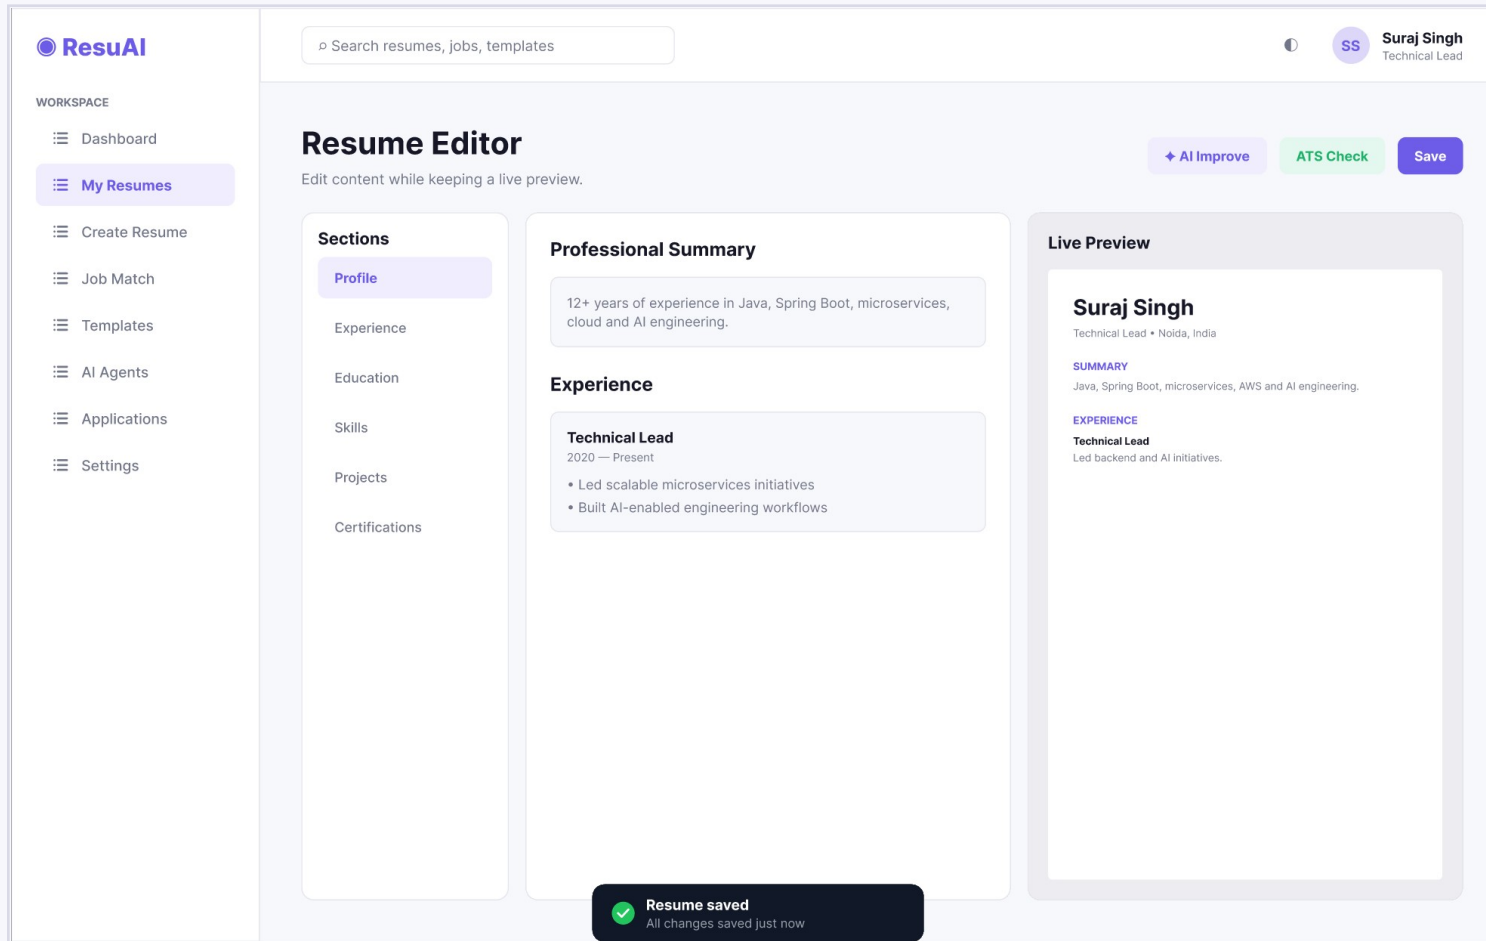

What it does

After Send, the agent lists the 3 changes it made and highlights the edited text in yellow on the resume for review.

Actions / next screen

- Accept changes -> Resume Editor
- Undo -> back to AI Resume Agent
- Back to editor -> Resume Editor

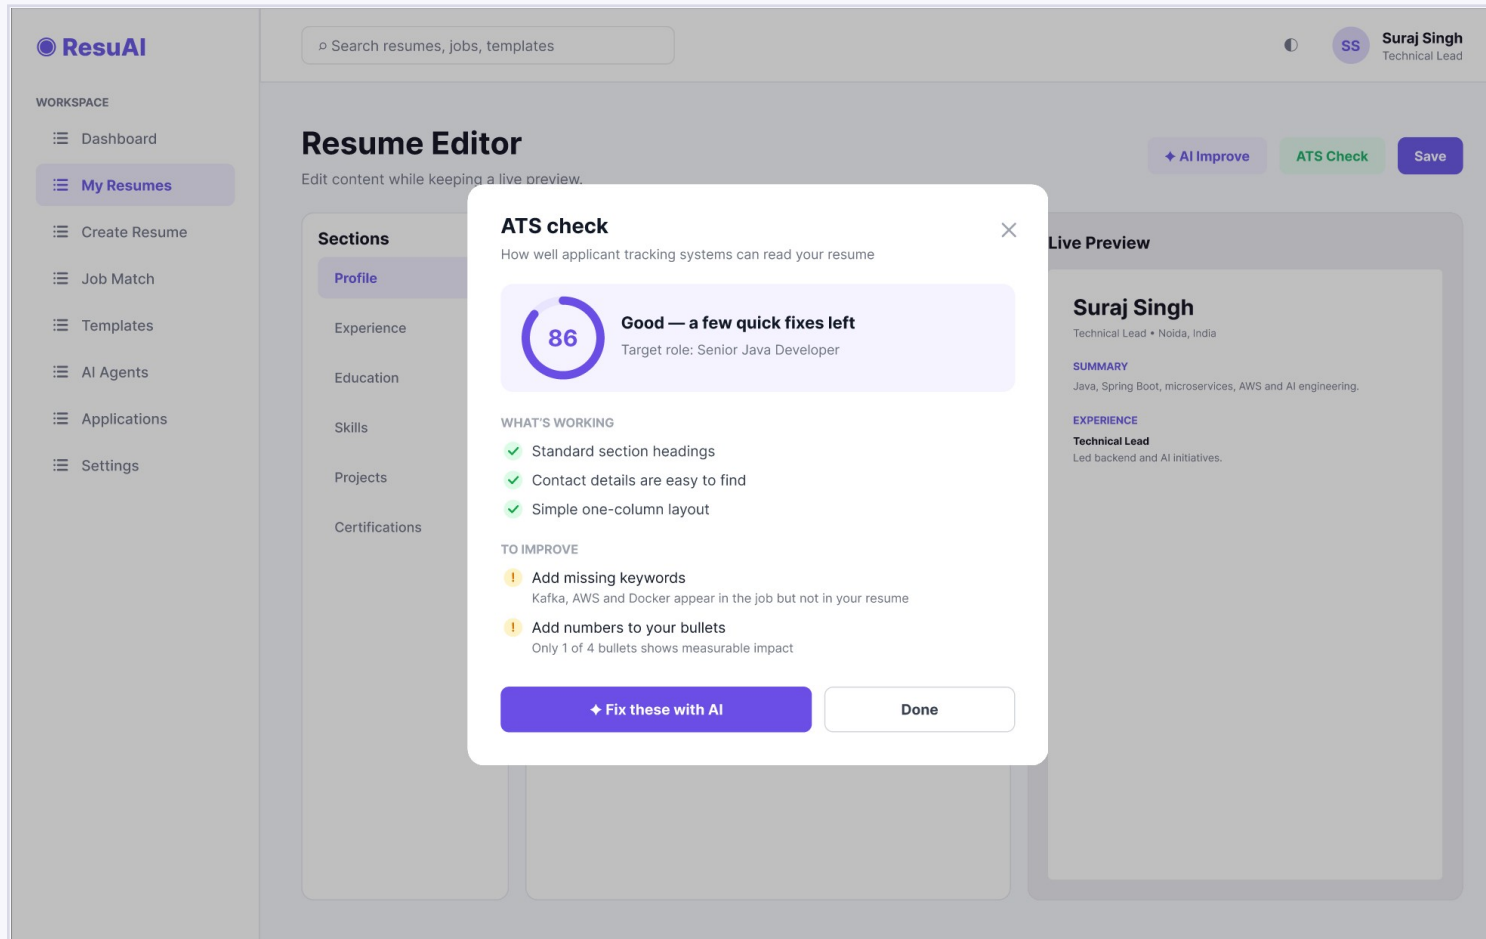

What it does

Clicking Save in the Resume Editor shows a short "Resume saved - All changes saved just now" confirmation toast at the bottom; it disappears after about 2 seconds.

Actions / next screen

- Stays on Resume Editor

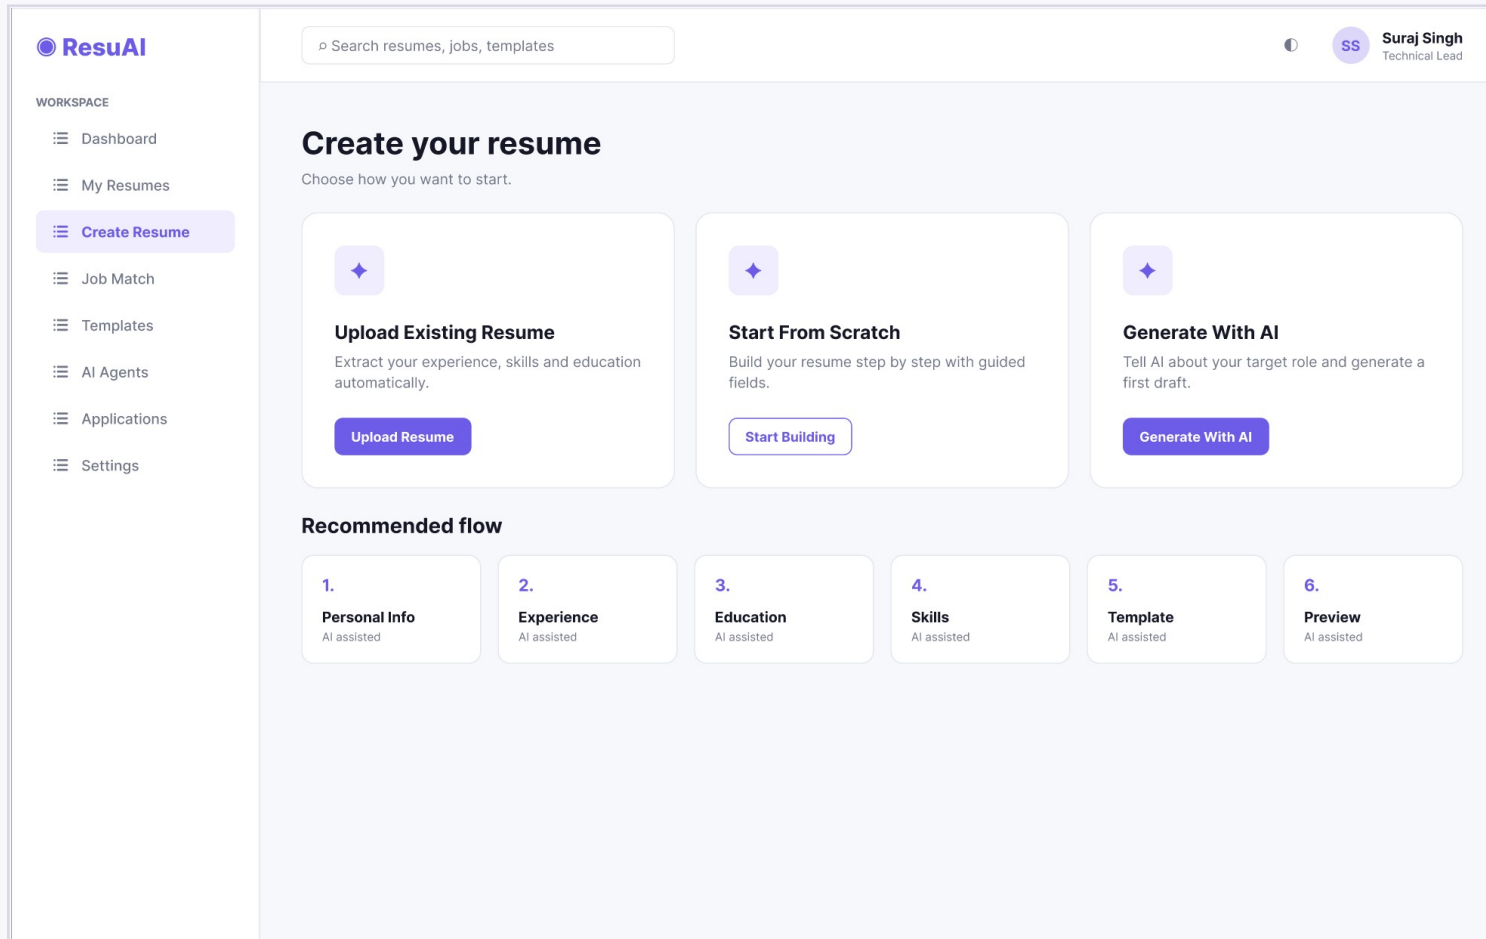

What it does

Popup showing how well applicant tracking systems can read the resume: score (86), what is working, and what to improve.

Actions / next screen

- Fix these with AI -> AI Resume Agent
- Done or X -> closes popup

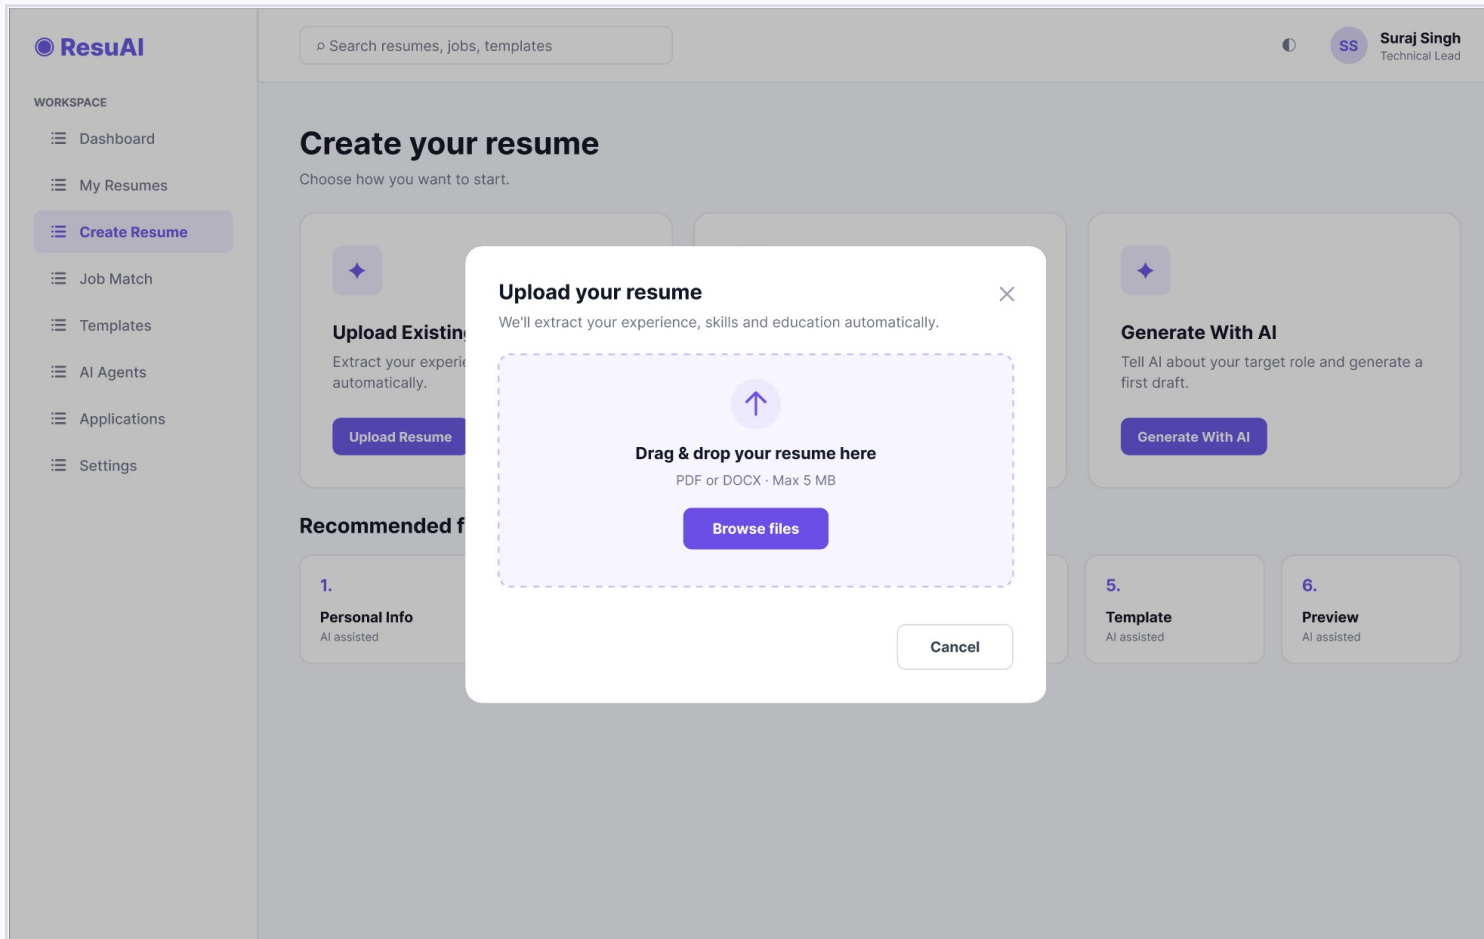

What it does

Choose how to start: upload an existing resume, build from scratch, or generate with AI. Shows the 6-step recommended flow.

Actions / next screen

- Upload Resume -> upload popup
- Start Building -> 6-step builder
- Generate With AI -> AI Resume Agent

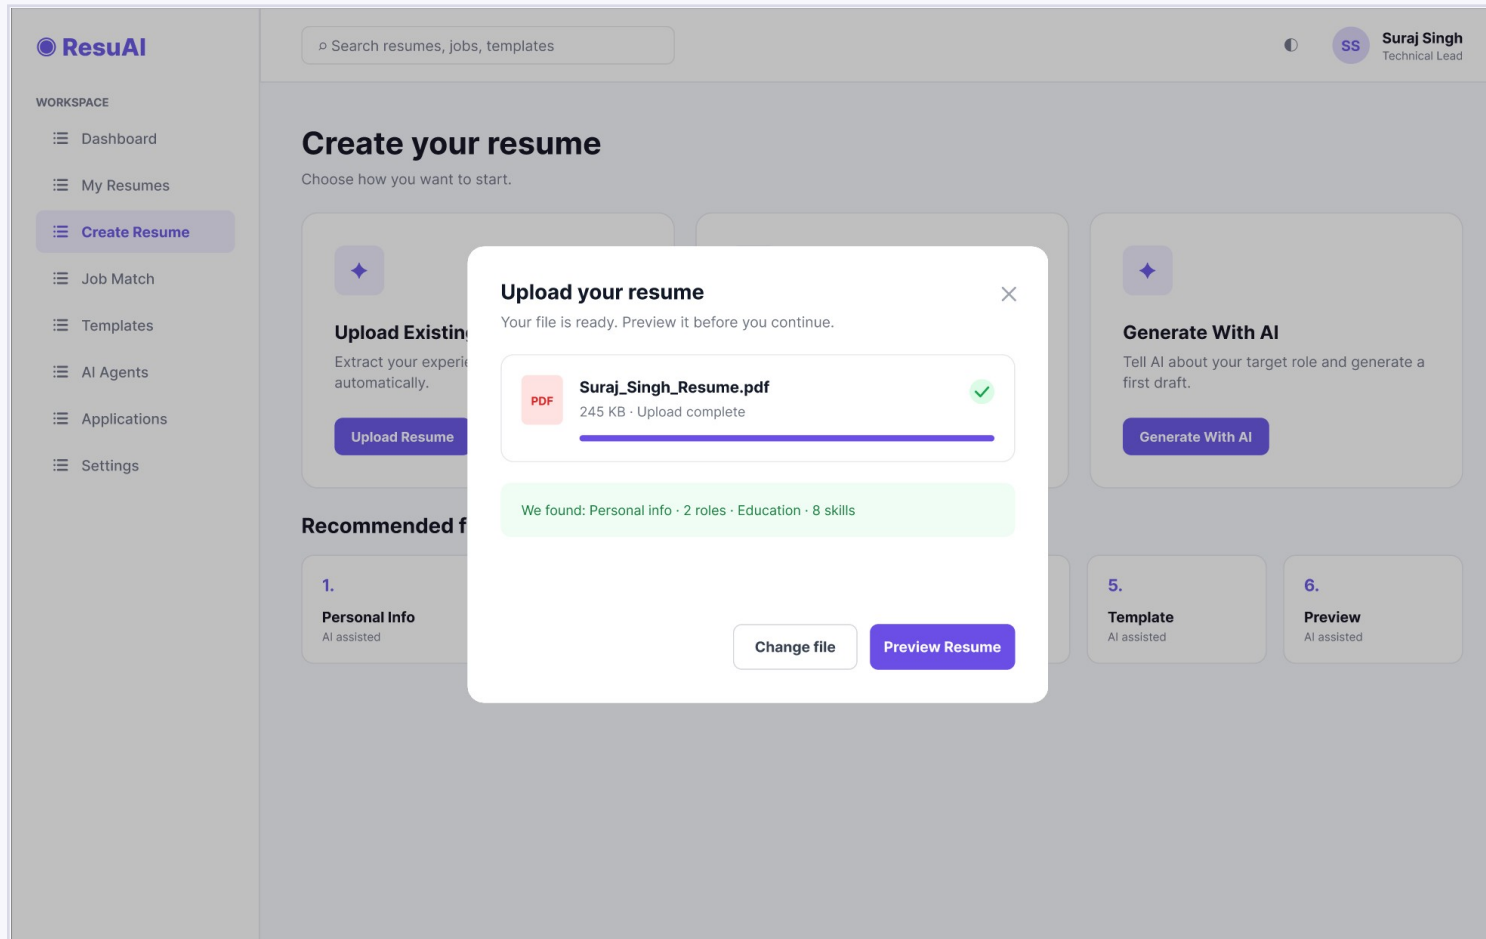

What it does

Drag and drop or browse for a PDF/DOCX (max 5 MB). The app extracts experience, skills and education automatically.

Actions / next screen

- Browse files -> upload complete state
- Cancel -> closes popup

What it does

Confirms the file uploaded and shows what was detected (personal info, 2 roles, education, 8 skills).

Actions / next screen

- Preview Resume -> Preview screen
- Change file -> back to upload popup

Your resume is ready

Modern template · 1 page

92 ATS score

Great! Recruiter systems can read it easily.

- ✓ All key sections filled
- ✓ Keywords match your job title
- ✓ Fits on one page

Open in editor

Download PDF

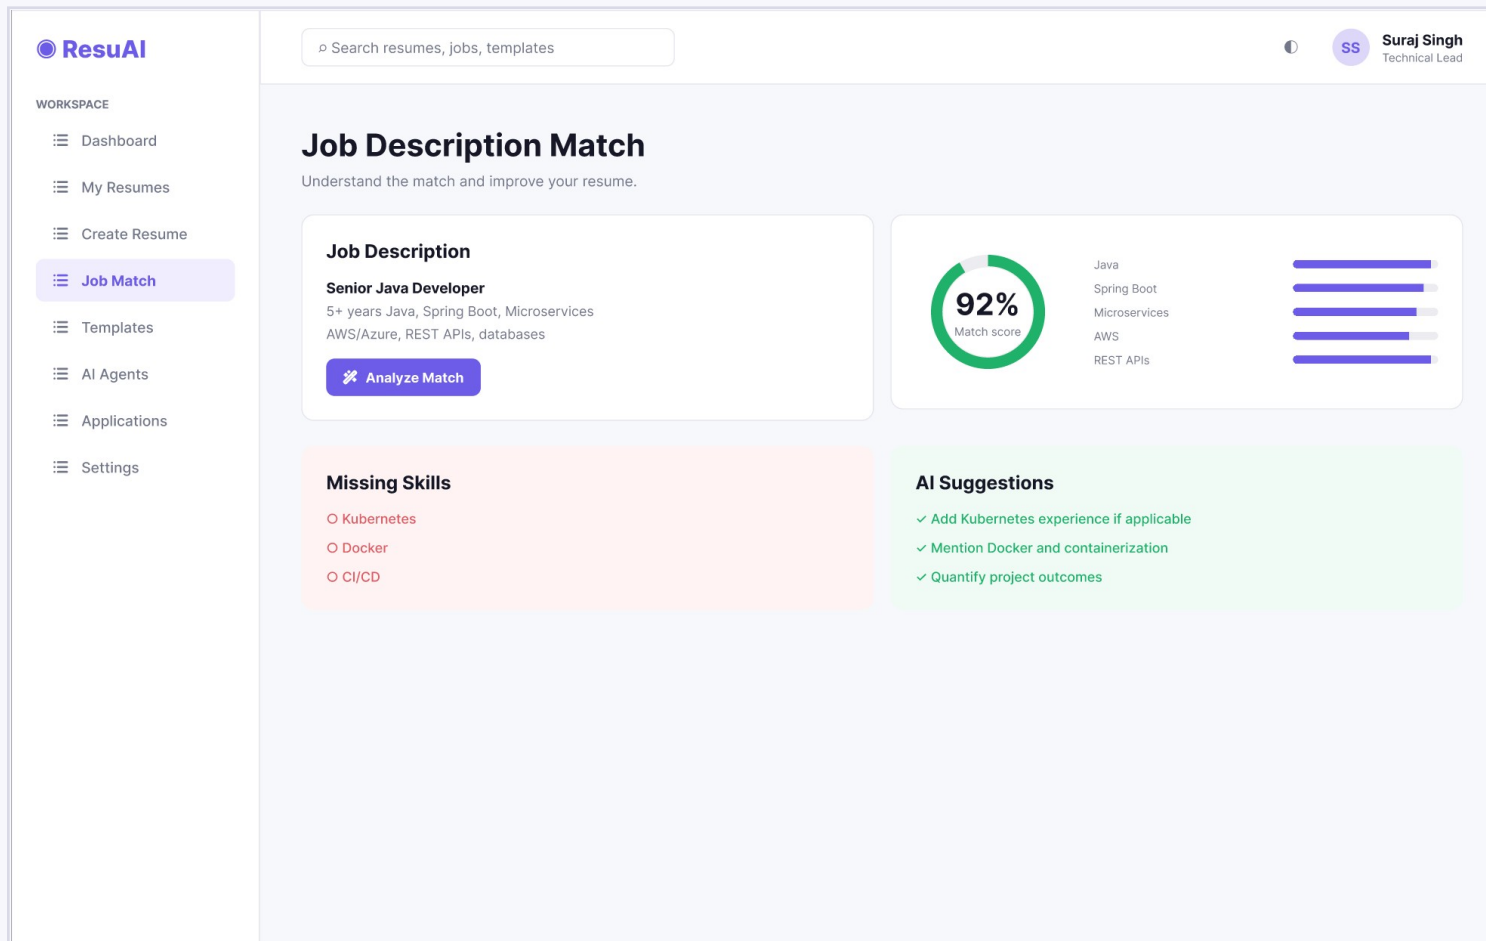

Back

What it does

Final resume preview with a 92 ATS score and readiness checklist (sections filled, keywords matched, fits on one page).

Actions / next screen

- Open in editor -> Resume Editor
- Back -> Step 5
- Download PDF (not linked in prototype)

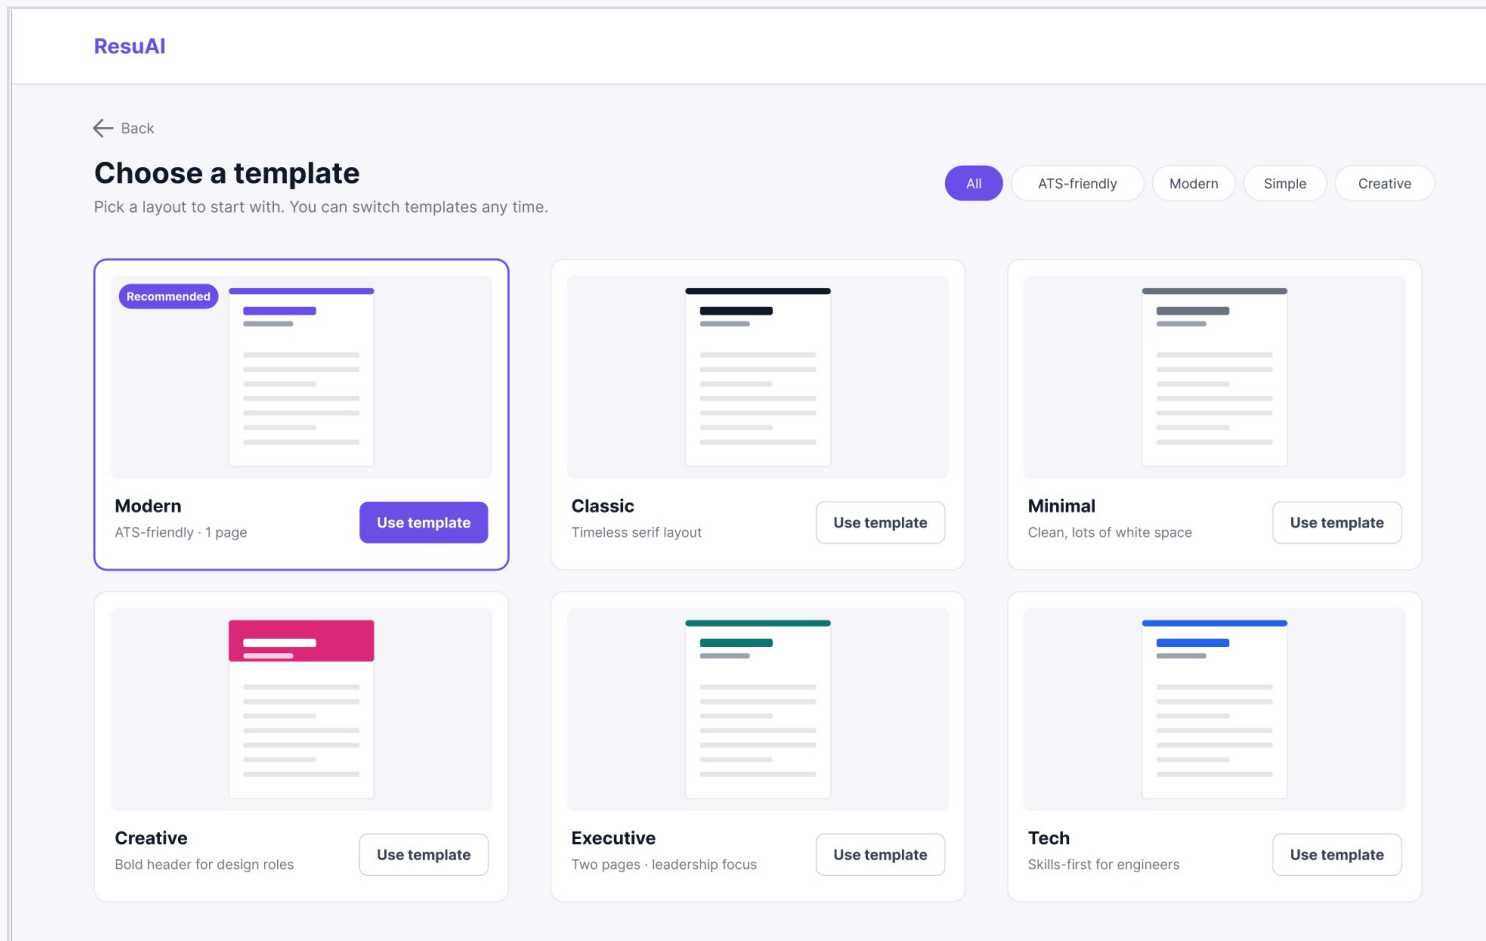

What it does

Compares the resume with a job description: overall match (92%), per-skill bars, missing skills and AI suggestions.

Actions / next screen

- Analyze Match -> AI Resume Agent

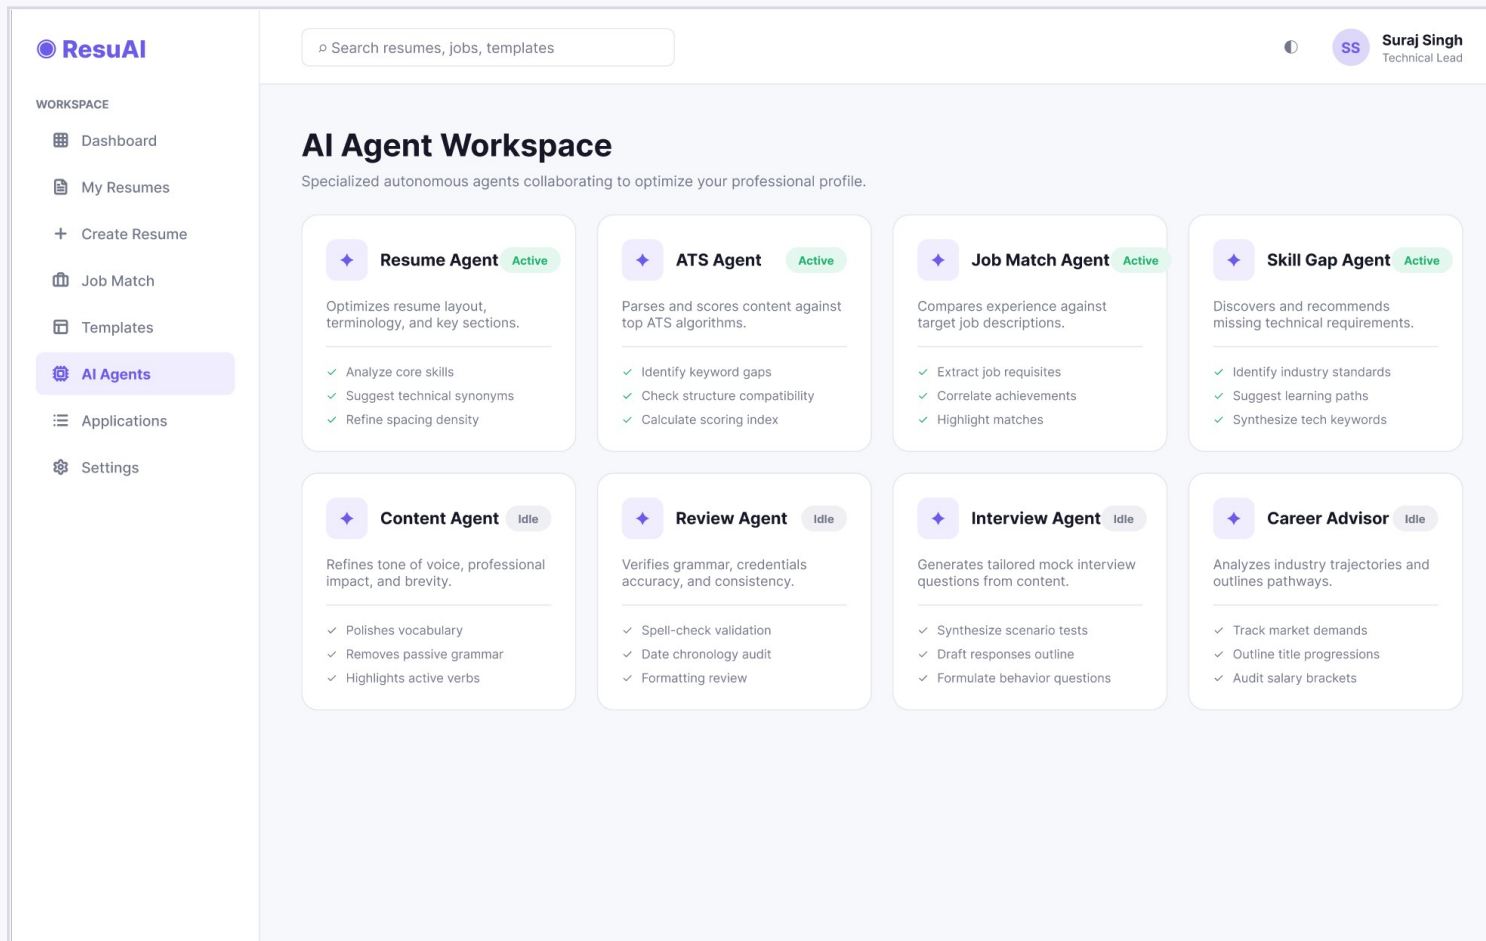

What it does

Template gallery with filter chips (All, ATS-friendly, Modern, Simple, Creative). Six layouts: Modern, Classic, Minimal, Creative, Executive, Tech.

Actions / next screen

- Use template (any card) -> Resume Editor
- Back -> previous screen

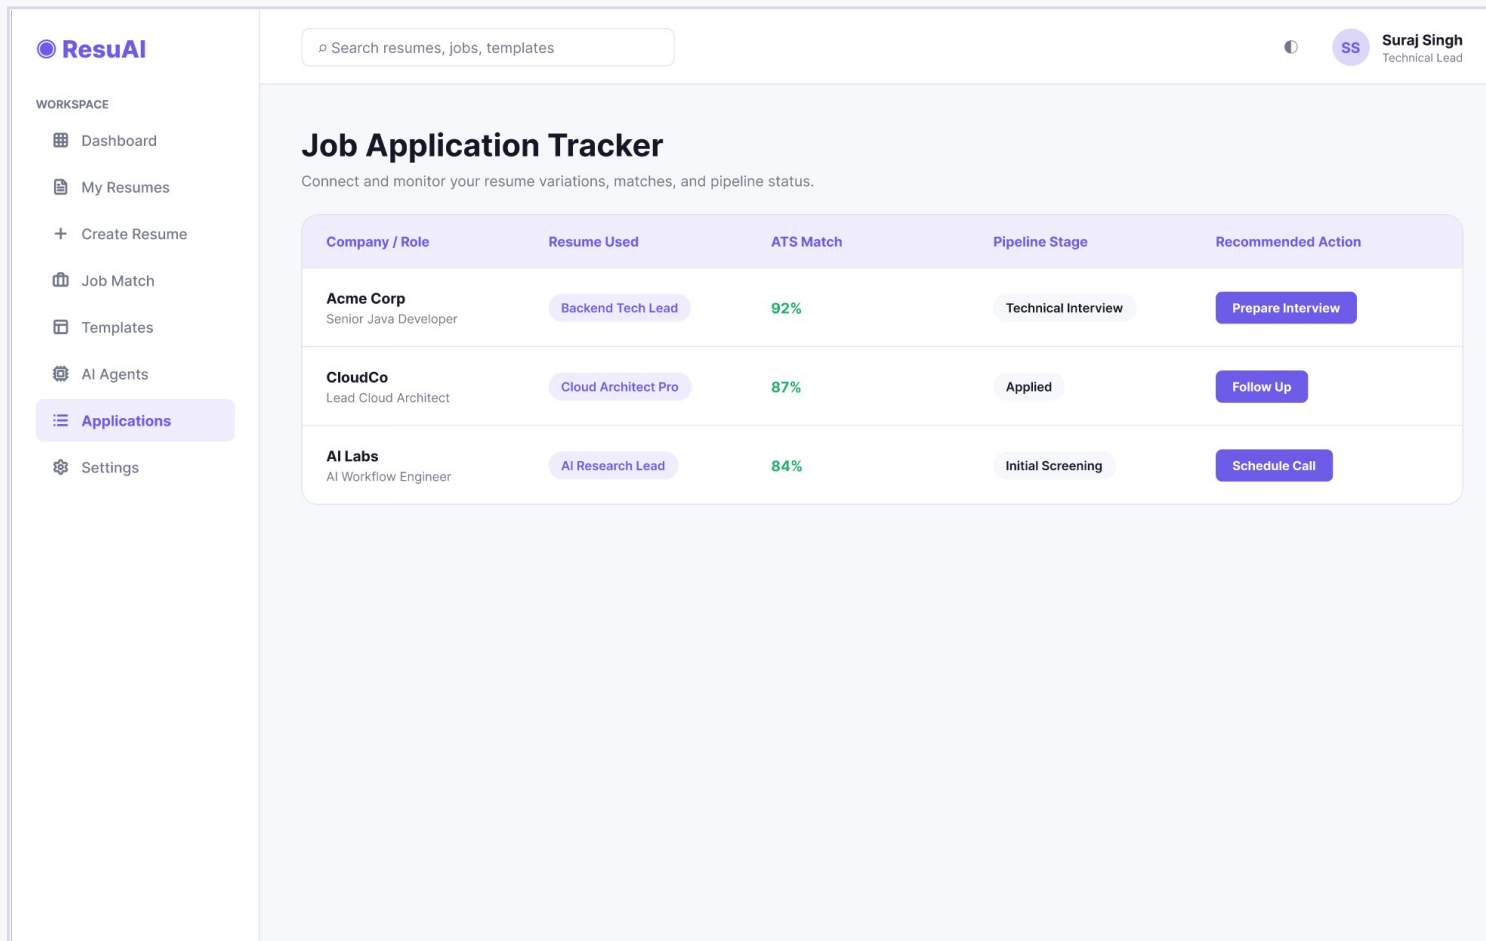

What it does

Workspace of specialised agents: Resume, ATS, Job Match, Skill Gap (active), and Content, Review, Interview, Career Advisor (idle).

Actions / next screen

- Any of the 8 agent cards -> AI Resume Agent

21 Applications

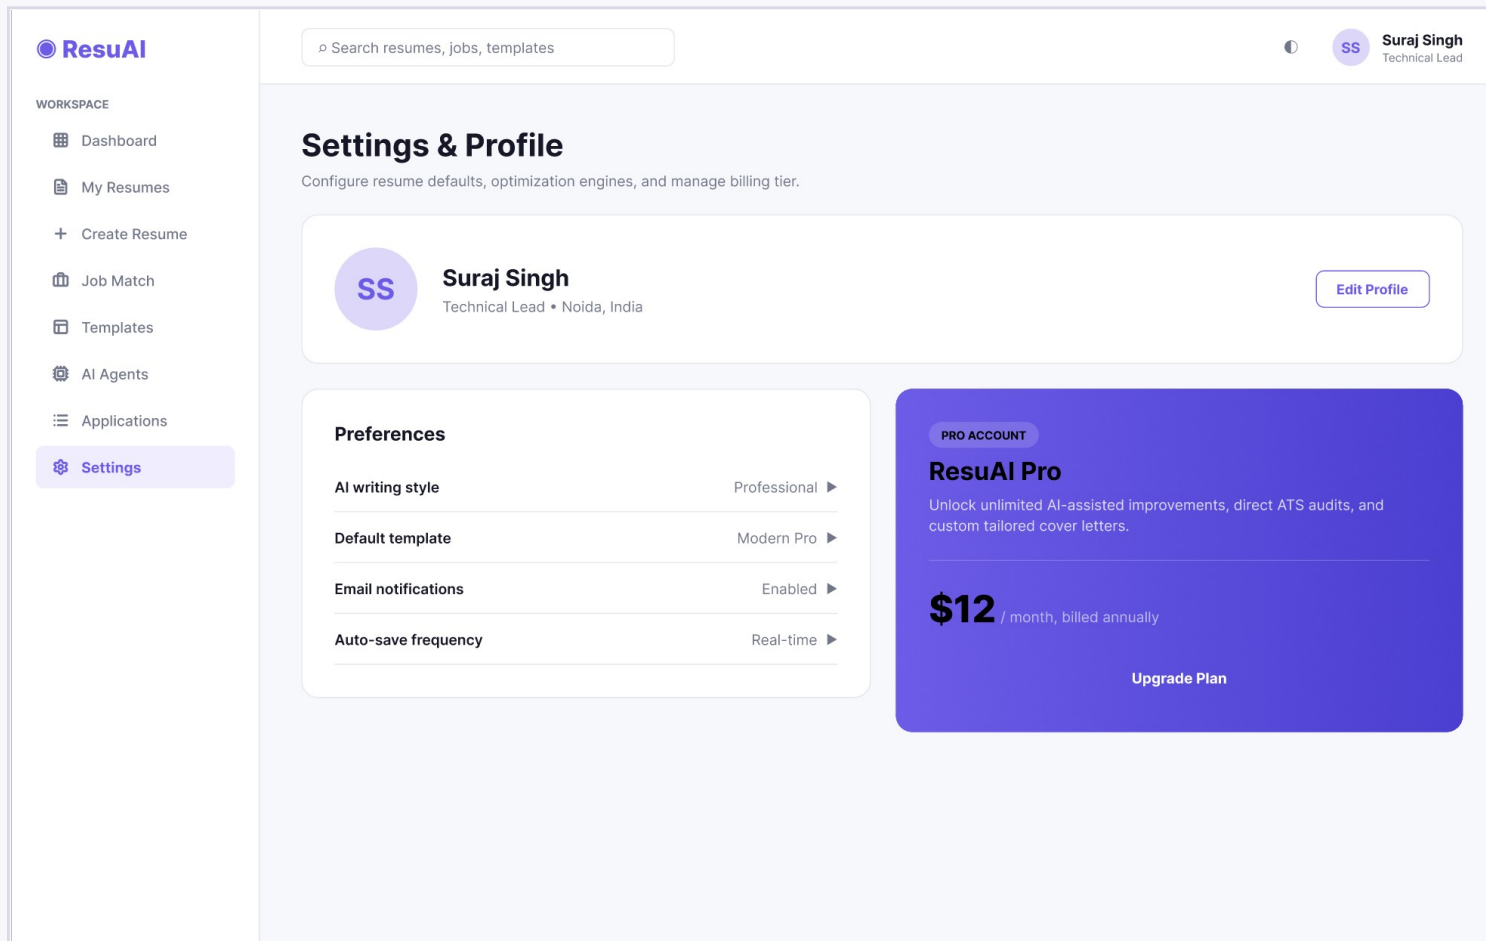

What it does

Job application tracker: company/role, resume used, ATS match, pipeline stage and a recommended next action per application.

Actions / next screen

- Sidebar navigation only (action buttons not linked)

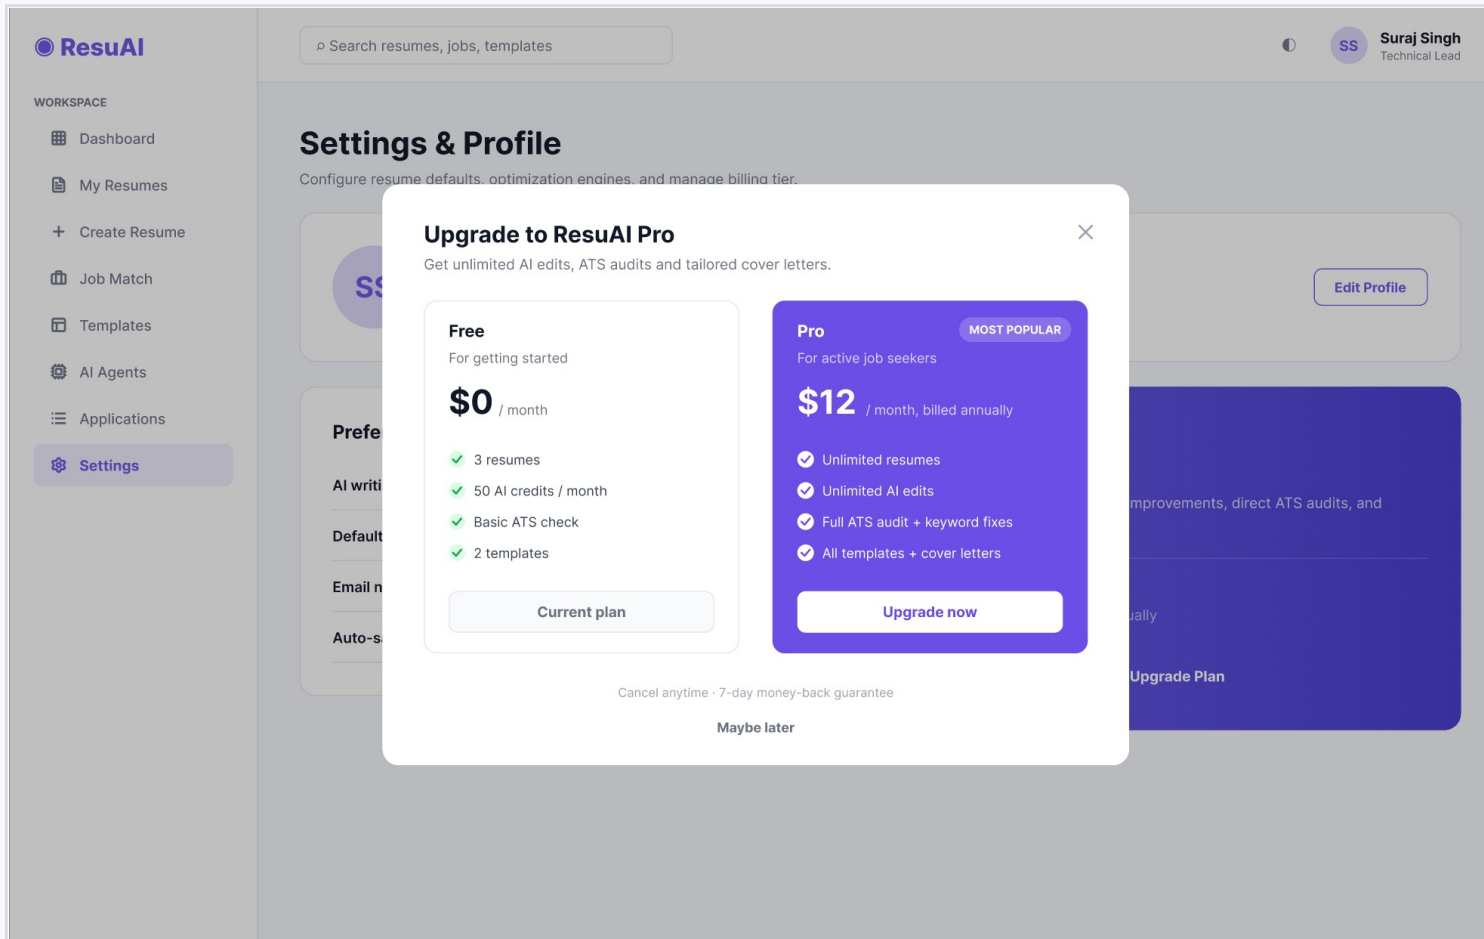

What it does

Profile card, preferences (AI writing style, default template, email notifications, auto-save) and the ResuAI Pro plan card.

Actions / next screen

- Edit Profile -> Builder Step 1
- Upgrade Plan -> upgrade popup

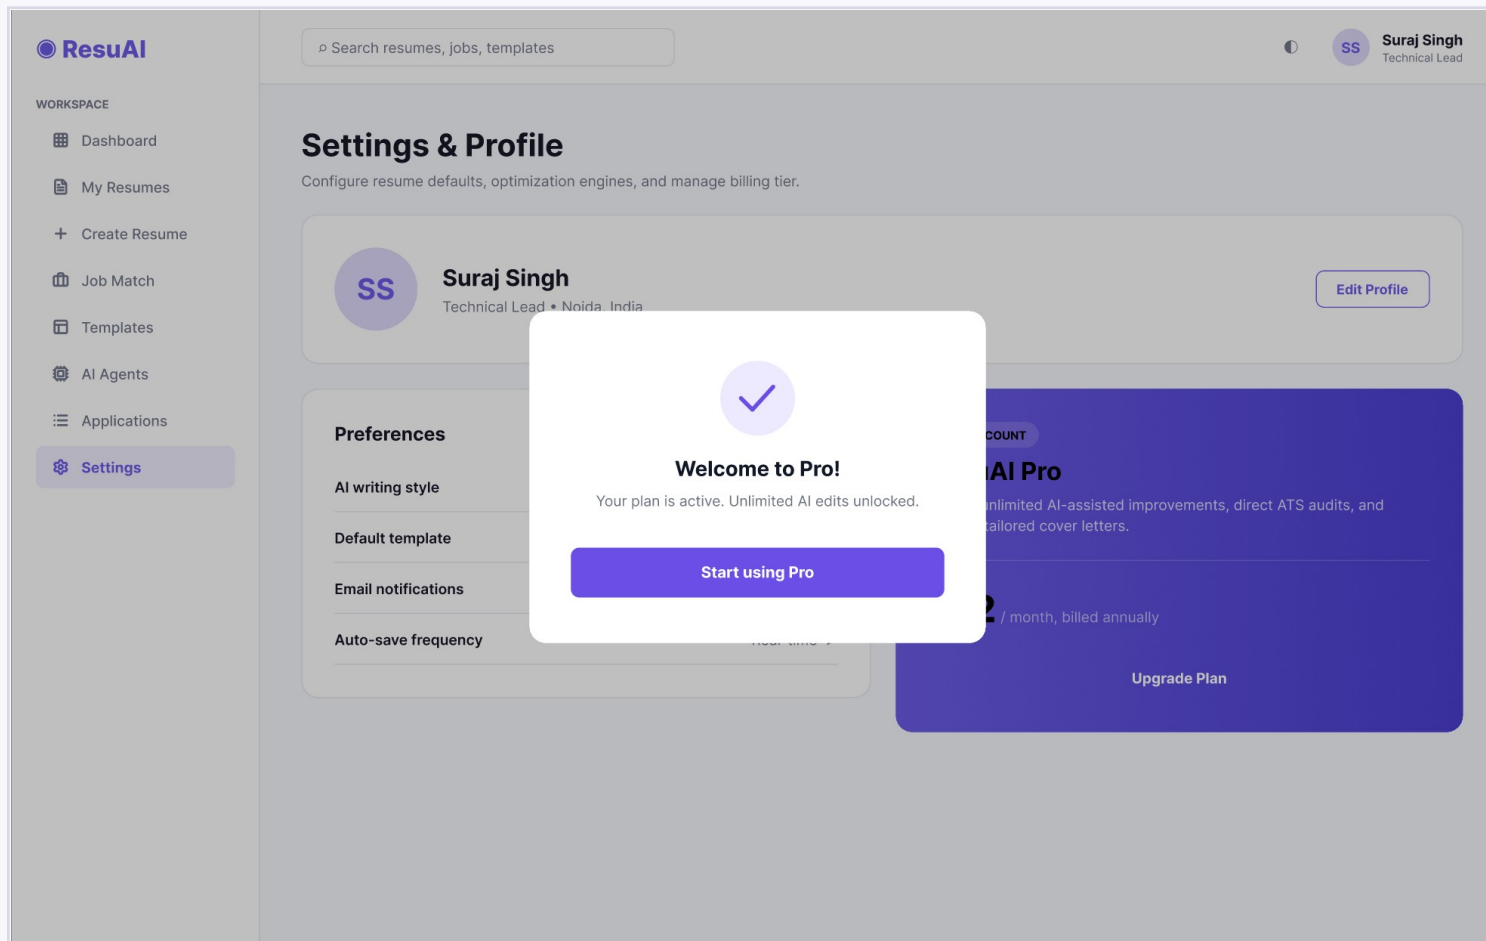

What it does

Compares Free (\$0) and Pro (\$12/month billed annually) plans.

Actions / next screen

- Upgrade now -> success popup
- Maybe later or X -> closes popup

What it does

Confirms Pro is active and unlimited AI edits are unlocked.

Actions / next screen

- Start using Pro -> Settings
